IRELAND.
OFFICIAL DIFFERENCES.

DUBLIN, Jan. 26.—Much feeling has been aroused by the action of the Duke of Marlborough in refusing to dine at the Lord Mayor's banquet on the 2d of February next. During forty years he had been invited to the Viceregal banquets, but had failed to attend the inaugural banquet. Even when O'Connell was Lord Mayor and antagonizing the Government, in 1841, Earl de Grey, the Tory Viceroy, attended. The reason of the Duke of Marlborough's refusal is that the Lord Mayor's proposal of a tax on the sale of victuals on the 2d inst., supporting The O'Donnoughue. The Viceroy's letter says:

"My Lord, I observe that in your official capacity as Lord Mayor you have recently issued a proclamation that the City-Hall, at which resolutions were passed, in relation to the West of Ireland, will be the scene of entertainment for the members of which His Majesty's Government will have taken for the relief of the distresses existing in parts of the country. I trust that the execution of the resolutions will prevent me from having the honor of dining at the reception. How could it be my power either to ignore them when they have received your official sanction or to offend your Lordship's hospitality by failing to accept your obedient servant."

JOHN BRIGHT'S REMEDY.
TO THE WESTERN ASSOCIATE PRESS.

LONDON, Jan. 26.—The conservative journals will to-day contain editorial articles severely criticizing the utterances of John Bright, especially in regard to the Home Rule Bill, which he has introduced to conciliate the Home-Rulers and Liberals, and he was exceedingly severe in depicting the deplorable results of alleged British misrule in Ireland. His denunciations were very violent, exceeding those of Parnell and other supporters. His speech is based on the ground that the Conservatives in Parliament, which will be a vigorous and united opposition to the false foreign and feeble and vacillating domestic policy of the Government.

Mr. Bright, in his speech, suggested that Parliament appoint a Commission to go to Dublin, with power to sell the farms of landlords to tenants who are willing to buy them and to advance three-fourths of the purchase-money therefor, the principal and interest to be repaid in twenty years. He said that if his plan was said, he believed would meet the wants and satisfy the desires of the Irish people. The Commission is to assist the tenants to purchase whenever a landlord was willing to sell. Mr. Bright recommended that the bill be introduced only where the lands were owned by London companies or guides, as is the case with large tracts near Londonderry. He expressed the conviction, however, that if his plan were adopted, self-interest or public opinion would soon compel individual landlords to sell to their tenants.
